Education

Institute Of Engineering Science, IPS Academy Indore, M.P. July 2021 – May 2025
Bachelor of Technology – Computer Science Engineering (CSE)

- CGPA: 8.50/10.00

Technical Skills

Programming Languages: Java, JavaScript, SQL, HTML, CSS
Frontend: React.js, Next.js, HTML5, CSS3, Tailwind CSS, Responsive Web Design
Backend: Node.js, Express.js, RESTful APIs, JWT Authentication.
Databases: MongoDB, PostgreSQL, Redis
Cloud & DevOps: Docker, Linux, Nginx, PM2, VPS Deployment, SSL/TLS, Git, GitHub
APIs & Tools: Razorpay, Google Maps API, Firebase Cloud Messaging (FCM), Postman, VS Code.

Experience

AppZeto Technologies Pvt. Ltd. – Full Stack Developer | Team Lead November 2025 – Present
IT Services & IT Consulting

Technologies: MERN Stack, RESTful APIs, JWT Authentication, Razorpay Integration, Google Maps API, Firebase FCM, GitHub, Docker, Nginx, PM2, VPS Deployment

- Contributed to the development and deployment of 10+ live client projects, including food delivery, quick commerce, taxi booking, and on-demand platforms.
- Developed secure RESTful APIs and JWT-based authentication using Node.js, Express.js, and MongoDB.
- Integrated Razorpay, Google Maps API, Firebase FCM, and other third-party services for payments, location tracking, and real-time notifications.
- Built responsive user interfaces used by 6,000+ active users across Android and iOS.
- Deployed and maintained the application in production on a Linux VPS using Nginx as a reverse proxy, PM2 for process management, and SSL for secure HTTPS traffic.

Professional Projects

Switcheats – Food Delivery Platform (6k+ Users) | Web | PlayStore | AppStore April 2026 - Present

Technologies: MERN Stack, JWT, Socket.io, Razorpay, Google Maps API, Firebase FCM, VPS Deployment.

- Engineered a production-grade platform serving 6,000+ users, 80+ restaurants, and 50+ delivery partners.
- Developed secure backend APIs, authentication, and integrated payment, mapping, and notification services.
- Built responsive features for Customer, Restaurant, Delivery, and Admin applications using React.js.
- Deployed and maintained production services using Docker, Nginx, PM2, SSL, and Linux VPS.

Homster - Home Services Provider Application | Link Dec 2025 - March 2025

Technologies: MERN Stack, Socket.io, Maps API, Payment/Billing Integration.

- Developed a home services platform connecting users with service providers for plumbing, electrical, repair, installation, and other household services.
- Built separate user and vendor workflows, enabling service providers to register, manage services, accept instant bookings, and handle customer requests.
- Implemented Socket.io for real-time booking updates and live service-provider tracking, allowing users to monitor service progress.
- Integrated dynamic billing and service-charge calculation to provide transparent pricing and streamlined payment processing.

Certifications Extracurricular Activities

- Amazon Web Services – AWS Academy Graduate in **Machine Learning** and **Cloud Foundations**.
- Udemy Certificate – **Java + DSA**.
- Udemy Certificate – **AWS Cloud Practitioner**.
- **HackerRank:** 3-Star in Java Language and 2-Star in C Programming and DSA.
- Solved **200+ DSA problems** on GeeksforGeeks.
